Site of the Day

Sleepy Hollow High School

The multimedia students of Sleepy Hollow High School create a video-based website to share student life with peers, parents, and the school community. So far, visitors can check out 20 streaming videos covering the latest events, news, sports, and classes — the students aim to complete 40 by the end of the year. Built with Adobe Bridge, After Effects, Audition, Contribute, Dreamweaver, Encore, Flash, Flash Media Server, Illustrator, Photoshop, and Adobe Premiere. (Jan. 25, 2007)
